West Virginia State University

Welcome to the Neighborhood Networks Program offered by

West Virginia State University Cooperative Extension Programs.

Charleston Housing (CH) and West Virginia State University
Division of Agricultural, Consumer, Environmental, and Outreach Programs (ACEOP)
have partnered to establish ten new Neighborhood Network Centers
in CH's family and senior living sites. The primary focus of the Resident Opportunities and Self
Sufficiency Grant (ROSS), is specifically to provide technology training and educational programs to
children, youth, families, and seniors who reside in Charleston Housing.

Programs that were held in 2003 included:
- Basic Computers
- Basket Weaving & Technology
- Christmas Card Workshops
- E-Mail
- Technology & Kids
- Family Storyteller

Tentatively scheduled activities for 2004:
- Open Lab hours
- Intermediate Computers
- Valentine Card Workshop
- Site Seer's Club
- Homeownership Workshop
- Life Management Skills
- Puzzles, Games, and More!
- GED preparation
- Legislature Workshop
- Credit Clinics
- My Access! Reading & Writing Program
- Internet Investigations

Special thanks to the following organizations who have contributed with our endeavors:

Charleston Housing
TLTEK Computer Services
West Virginia State Community and Technical College (WVSCTC)
Kanawha Institute for Social Research & Action (KISRA)

Click here
to see our current computer lab schedules for Carroll Terrace, Lee Terrace, Lippert Terrace, Jarrett Terrace,
Hillcrest Village, Little Page Terrace, Oakhurst Village, South Park Village, and Washington Manor.
